

## Media Release

onehitwonder

This week, four ambitious Tasmanians will be launching an initiative that aims to raise over 7 million dollars, one dollar at a time. On December 25, 2008 they will begin to give away every dollar, 90% to the poorest communities in developing countries, and 10%, plus interest will be utilised locally. The money will be given through various organisations across the globe covering many regions and need. Not one dollar will be used for administration or any other associated expenses. These operational costs will be covered by the organisers and their partners. The onehitwonder project is an initiative of Third Place Communities Inc., a non-profit incorporated association located in Hobart, Tasmania.
